

Snag List

Clock exercise

1st step:

Top stripe

- Remove the top stripe
- Black square when we fly over the buttons
- Smiley and button design?
- Remove the white contour of the clock

2nd step:

- Remove the top stripe (with smiley when it's correct)
- Remove the white contour of the clocks
- Black square when we fly over the buttons

3rd step:

- Remove the top stripe
- Black square when we fly over the buttons
- Remove the left points
- Replace the box (centring the box and the number)
- When we give the good answer in first
 - The smiley doesn't appear in the window
 - We can still click on the answers and the window appears too -> need to block the boxes? (with the smileys inside)
- When we give the good answer in second
 - The window appears without smiley
 - We can still click on the answers and the window appears too -> need to block the boxes? (with the smileys inside)
- When we give the good answer in last
 - Can click on the good answer but the smiley doesn't appear
 - We can still click on the answers and the window appears too -> need to block the boxes?

Shape exercise:

1st step:

- Remove the top stripe
- Black square when we fly over the buttons
- When we click on the undo button the shapes below are mixed
- Remove the undo when we have the good answer? (block the exercise)
- The undo removes all the shapes -> Undo removes only one shape?
- When we click on the validation button at the beginning nothing is happening.

2nd step:

- Increase the size of the box where we can put the answers
- Validation button above
- Black square when we fly over the buttons
- Bottom stripe is missing
- Remove the top stripe
- When we validate while it's false, the shapes move back
- Block the shapes when it's correct?

3rd step:

- Same remarks than the first step ([shape exercise](#))
